Bioengineering Plan of Study Tutorial

General Info:
- The plan of study is REQUIRED for all graduate students within the School of Engineering.
- It must be completed by the end of your second semester of study.
  - If it is not complete, a hold will be placed on your enroll & pay account.
- Consult the “instructions” tab once you log on for general tips from the School of Engineering.
- You need a plan for each degree you are actively seeking. If you are classified as MS/PhD, you will need to create 2 plans.

Plan Specifics:

Departmental Instructions

Plan Status: Unapproved
Steps:
1. Select your degree. — Completed
2. Select your committee. — Completed
3. Enter your courses. — Completed
4. Submit your plan:
   - First approval

Degree Information

Update Degree

Degree: Doctor of Philosophy in Bioengineering
Admit Term: Fall 2012
KU Employment: GRA
Topic of Interest: Dissertation Title/Topic
Minimum Number of Hours: 60
Estimated Graduation: Spring 2016
Notes: Track of Study belongs here...
Previous Degrees:
B.S. in blah, blah, blah — Completed Spring 2012

Note:
Students who hold a GRA, GTA, or Student Hourly appointment must obtain by enrollment requirements each semester. Requirements are listed in the Graduate Catalog.
Courses:

- Every course needs to be listed out for every semester. DO NOT lump credits together.
  - IE...There should be 4 entries for colloquium, not 1 entry worth 2 credits.
- List all courses counting towards your degree.
  - Transfer credits should be listed with what it is satisfying as the “instructor.” (below)
  - Waived classes need to be listed with what you are taking in its place. (see below)
  - Deficiencies must be listed.
    - If you are taking a graduate level class that counts toward your degree and the deficiency, list it twice to show that. (see below)
- Make sure your total hours meet the minimum for your degree.
- Update your courses every semester to include your grades and any changes
  - IE...the course you planned on taking isn’t offered in that given semester.
- Once you complete all of the above, submit your plan for approval.
- If you take the time to fill this out correctly the first time, it takes a minimal amount of effort to maintain it.
- If you have any questions, please contact the program assistant.
